

United States Patent 12,478,892 B2

Sensorial activity toys

Assignee: Pushpeel LLC (Albany, New York, US)

Inventor: Sayer Murphy (East Aurora, New York, US)

Filed: November 14, 2024 Issue date: November 25, 2025

USPTO Official Gazette, week 47 of 2025, publication 1540-4.

Abstract

A toy may include a platform with a surface and channels formed by protrusions, together with a removable member having a cross-sectional profile sized for insertion into a channel to form a snap fit. The patent concerns sensorial activity toys and their channel-and-member structure.

Rights identification
